

Assignment 1

Ghazal

DA3 Assignment 1

1.Introduction

This assignment presents earnings per hour of **this** occupation for the ones who has more than associate degree or occupational /vocational

2. Data

3. Regressions

4. Performance of Models

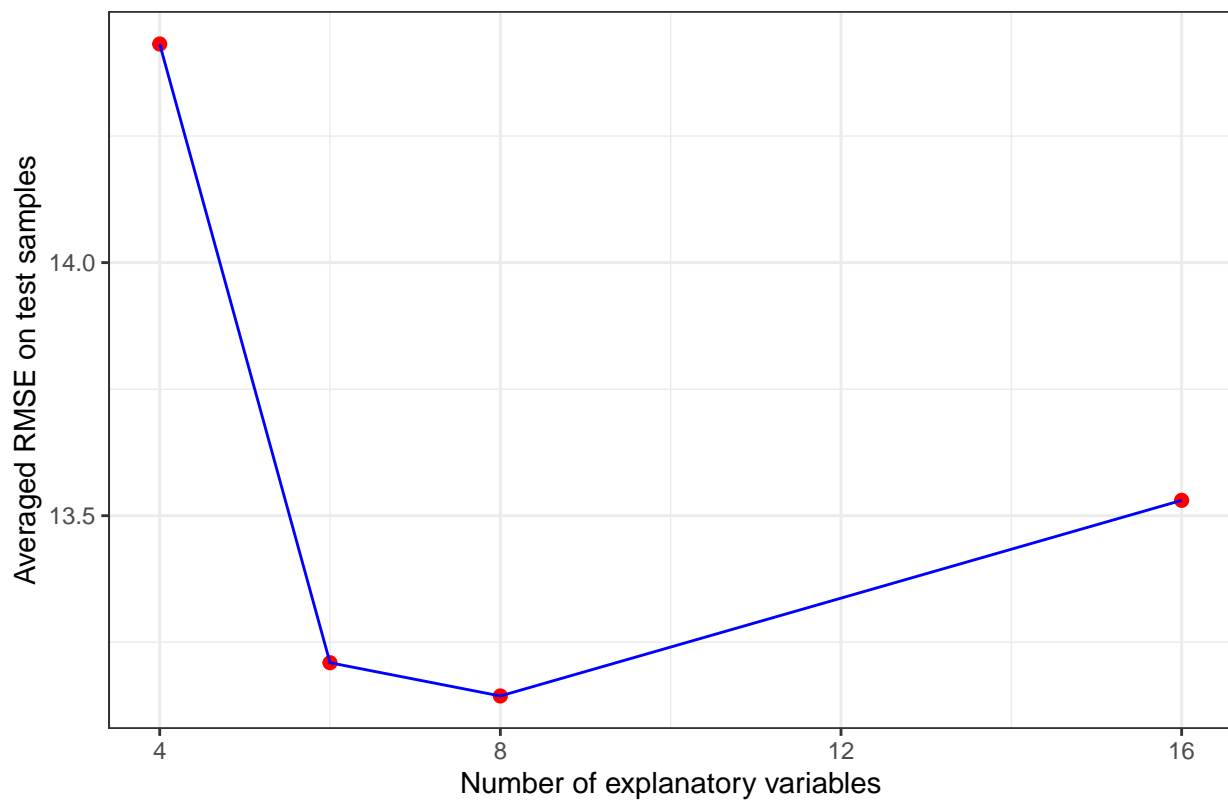

5. Prediction

5. Summary

Prediction performance and model complexity

```
# Select Model 3
```

```
#####
```

```
# 5C) Prediction
```

```
# Compare model1 and model3 to predict our the hourly wage
```

```
dt <- dt %>% select(grade92, age, female, w, ed_BA, ed_MA, ed_Profess, ed_PhD, agesq, privt_sec, child)
```
